Objective :write a program that will print table of any no.

Tools: jdk 8

Environment: windows 10

Code:

```java
import java.util.Scanner;

class Table
{
public static void main(String[] args)
{
Scanner Table=new Scanner(System.in);
System.out.print("enter a integer");
int  n=Table.nextInt();
for(int i=1;i<=10;i++)
{
System.out.println(n*i);
}
}
```

}

```
Table.java:8: error: cannot find symbol
int  n=S.nextInt();
       ^
  symbol:   method nextInt()
  location: class S
1 error

F:\java1>javac Table.java

F:\java1>java Table
enter a integer2
